Annexure- Programme with class wise Reports with Internal Marks details

Introduction

The Naan Mudhalvan platform aims to provide dynamic information for college students on courses and relevant information about industry-specific skill offerings. This will enable the students of Tamilnadu to get training in their chosen field of interest that will help them in achieving their career goals.

The chief minister of Tamil Nadu launched an ambitious skill Development Scheme called Tamil Nadu Naan Mudhalvan Scheme on 1st March 2022. Through this scheme, the government is going to equip 10 lakh young people across the state annually with skills that will help them to realize their talents for the benefit of the country. Through this scheme, academic guidance will be provided to talented students in government-run and state educational institutions. This scheme will identify the talents and train the students, which will ultimately help them in getting a better career. Through this scheme, spoken English lessons will be provided for the students so that they can face the interview panel successfully.

Vision

To streamline the skill development efforts in the state and create an environment in which we can not only provide skills training but also employment for the youth to meet the growing market demand for skilled workforce and equip them for continuous development and learning in a changing enterprise environment in India and the world.

Our vision is to create constant opportunities for the youth of Tamil Nadu to be able to acquire skills of choice and to support them with the means of creating sustainable livelihoods.

Mission

Our mission is to constantly strive and integrate the efforts of various departments engaged in skilling the youth of Tamil Nadu and bring the necessary scale, synergy, oversight and effective coordination in the implementation of various skill development schemes and to promote public-private partnership to encourage private sector initiatives like corporate social responsibility (CSR) in the field of skill development and finally support placements.

Objectives and aim behind the launch of Tamil Nadu NaanMudhalvan Scheme.

The objective of this scheme is to identify potential training providers, to impart various skill training based on current industry gaps.

Through this flagship program, students will be able to get trained and ensure they get jobs according to their skill sets. The NaanMudhalvan programme will also offer career and academic guidance to students in state educational institutions.

The primary objectives of Tamil Nadu NaanMudhalvan

Identification of Talent – Under this scheme, the government will identify talented students across the state studying in various government-run and state educational institutions. Students will be identified not only on the basis of their academic performance but also on their performance in extra-curricular activities.

Skill Development – The government will run skill development classes so that talented students can hone their skills and excel in the field of their interest. The skills of students such as spoken English will be improved so that they face interviews rather confidently.

Academic Guidance – Many students find it difficult to choose the career path after finishing their school and college studies. For such students, a guidance bureau will be set up in all schools and colleges of the state. This bureau will provide the perfect guidance for all students. In addition to this, the government will also appoint psychological counsellors and medical doctors in the schools. They will offer guidance on nutrition, physical fitness and overall personal development.

Naan Mudhalvan Program at Chikkanna Government Arts College.

The NaanMudhalvan scheme is a skilling and up-skilling initiative launched by the Government of Tamil Nadu. The scheme focuses on bridging the skill gap between students and preparing them for employability, by offering training programs in various sectors.

The NaanMudhalvan Program was implemented successfully by the NaanMudhalvan team under the headship of Dr.V.Krishnan, Principal, Chikkanna Government Arts College, Tiruppur, under the guidance of Dr.M.K.Vinayagamoorthy, Associate Professor and Head, Departement of Economics and Dr.R.Haridas, Assistant Professor, Department of Business Administration who is identified as the Single Point of Contact for the NaanMudhalvan Program at Chikkanna Government Arts College, Tirupur. The key to the success of this program lies in the confidence and excellent support and key role played by the all NaanMudhalvan nominated Professors extended by the with and Technical support from Dr.K.Sarojini, Assistant Professor, Department of Computer Science. The cooperation and coordination extended by all the HODs, and the teaching and non-teaching faculty in the successful execution of the program at Chikkanna Government Arts College deserve special mention.

Departments: BCA and B.Sc. CS

Mode of course conduction: online mode

Mode of assessment conduction: online mode

Training partners: Smart Bridge

As a part of the NaanMudhalvan program which aims to promote digital skills and employability among the youth in Tamil Nadu, the final year students pursuing BCA and BSc Computer Science at Chikkanna Government Arts College are offered a Machine Learning course. Machine learning is a subfield of artificial intelligence (AI) that involves the development of algorithms and statistical models, which allow computers to learn from data without being explicitly programmed. Building systems with the ability to continuously improve their performance on a given task based on the experience obtained from the data they are exposed to is the aim of machine learning. This is accomplished by giving algorithms extensive training on huge data sets, which enables the algorithms to find patterns

and connections in the data. The machine learning programme helps students improve their processes and enhance the learning journey.

a Digital Marketing Course in today's digital age, digital marketing has become a crucial component of any marketing strategy. With the increasing importance of digital marketing, many individuals and business owners are seeking to gain the skills and knowledge needed to succeed in this field. One of the best ways to achieve this is by taking a digital marketing course. A digital marketing course provides an in-depth understanding of the various digital marketing techniques and strategies. It equips students with the skills required to promote a business, product, or service online. A digital marketing course is beneficial in several ways for students.

CHIKKANNA GOVERNMENT ARTS COLLEGE, TIRUPUR – 2

ISSUES AND CHALLENGES FACING IN THE NAAN MUDHALVAN COURSE IMPLEMENTATION

S.No.	Name of the Course	Issues and Challenges
1.	**Cambridge**	*There are three students who come under the learning disability category in which provision is needed. * There are difficulties when sorting the students into A2 and B1 category wise and there are no department –wise students' details and there may be a chance of more students of the same names and initials. In this regard, we need a solution to the streamline process.
2.	**Microsoft Essentials**	*Microsoft- Students are facing network issues as these courses, like online mode, students have to watch all the videos but, as a poor segment of students aren't able to afford money for buying online data cards. *There is no pre-printed course material either in PDF or PPT form for the students to prepare their examination point of view. Hence, consider this as a mandatory one. * There is no clear idea about the mark distribution for internal as well as external examinations. Please make sure whether the internal examination is to be conducted separately or if it is taken from the marks obtained by the students on every module of the course they will complete. We did it only at the last minute and it was executed at the eleventh hour.
3.	**Google – Sales Force (Mathematics)**	Time constrains and inadequate technology support to execute the NM programme
4.	**Google – Sales Force (Physics)**	In the second task, some of the few students get issues while accessing the inside task-two module and they also feel inadequate time to execute the programme.
5.	**Machine Learning**	The Machine Learning programme, which is more time consuming because the faculty feels that there is time constrained for doing students' projects
6.	**NSE Academy**	The faculty pointed out clarity on Internal & External marks and we received only the last minute and at the same time before going for the online test there may be a pilot test for the students to get trained for the main NM Examination.
7.	**IBM Skill Build**	The faculties are expecting a pre-printed booklet form of the programme.
